Mr. Barth,

In response to your request for "Copies of the previous NPDES permits (other than the 2001 permit) for the Four Corners Power Plant." I searched various locations and was able to locate an old un-labeled storage box with previous permits from 1983, 1988, and 1993. Scanned copies of these are attached to this email.

At the time the currently proposed permit was developed these older permits were not available. They are not part of the administrative record of the proposed permit; nor were they required to be part of that record.
